

**Nancy Victorson**  
County Extension Educator

**Volunteer Academy**

Eastern U.P. Extension staff will offer a 4-H Volunteer Academy October 8 - 9 at Bay Mills. This is a free training for current or recent 4-H volunteers from the Eastern Upper Peninsula.

This is a chance to learn new skills to enhance work across all 4-H project areas. Participants

will have fun while learning to identify and effectively use age-appropriate materials to

teach the life skills that young people need today.

More information will be available soon, but mark your calendar and plan to attend. MSU staff from campus will teach much of the training, but our local staff is planning many fun additions to the overnight training.

**Kettunen Center 4-H Volunteer Trainings**

Fall is the time when leader

training sessions start again at Kettunen Center, our state leader training facility in Tustin, near Cadillac. The Luce County 4-H Leaders' Council offers scholarships for our leaders to attend. Below are two trainings that will be held in October.

**4-H Clothing & Textiles Teen & Adult Volunteer Leader Workshop**

This training, set for October 15 - 16 at Kettunen Center, offers a chance to explore new project ideas and skills to use in 4-H clothing and textiles clubs.

Sessions tentatively scheduled include beginning and advanced sewing skills, entrepreneurship, several quilting classes, projects for five- to eight-year-old youth, fashion illustration, altering ready-to-wear, a special teen design class and more.

This is open to new and experienced adult and teen volunteers ages 13 and up.

**4-H Healthy Living = Healthy U Teen & Adult Volunteer Leader Workshop**

This workshop will be held October 14 - 16 at Kettunen Center. Designed for youth, adults and volunteers that work with youth, it teaches participants how to incorporate "healthy living," one of the 4-H mission mandates, into your club, community and life.

The session will offer some exciting ways to get started and introduce you to opportunities and curriculum that is available to sustain healthy living. Participants also will get a head start

on the new Moving Michigan challenge. Youth can learn how to become a healthy living ambassador.

Health is one of the 4 "H's" in 4-H, so come learn what it is all about and how to stay active in your club, community and the world.

MSU scholarships are available for adult volunteers and youth to attend this workshop, which is open to adult and teen volunteer leaders ages 14 and up.

For more information on any of these workshops, contact the Luce County MSU Extension office at 293-3203 or visit us in Newberry in the Luce County Government Building.

**LCCR&R to Host Free Senior Appreciation Dinner**

Senior citizens are invited to an appreciation dinner Tuesday, September 20 from 4:30 - 6:00 p.m. at the LCCR&R/Teen Center, located on West Helen Street.

The menu will include ham, scalloped potatoes, green beans, rolls, chicken, mashed potatoes, gravy, stuffing and corn. Dessert and drinks are included.

Advance registration is suggested. Call 293-3729.

**TARSP Schedules September Meeting**

Tahquamenon Area Retired School Personnel will meet Tuesday, September 13 at 12:00 noon at the Knollwood Inn. Bob Wiles will present a program on MARSP and legislative updates.

Reservations must be made by September 9. Call Bob at 293-8448, Carol at 293-3733 or Janice at 293-6042.

All proceeds go to support  
The Newberry Area Chamber of Commerce

In regards to cats, less allergenic cats are thought to be female, adult and short-haired. 'Hypoallergenic' cats include the Devon Rex cat and the Sphinx cats, according to some sources.

Dr. Ranta outlines some important steps in reducing pet allergen levels, which include: 1) Bathing your pet weekly, which reduces dander levels; 2) Keeping your pet outside (shelter needed in Michigan); 3) Opting for carpet-free flooring, or shampooing the carpet regularly; 4) Choosing a non-furry pet (turtles, frogs, lizards or fish); 5) Installing vent filters in furnaces; 6) Using allergy medications, which can provide temporary relief; and 7) Starting allergy shots, a proven method of treating and eliminating dog and cat allergies.

Dr. Ranta does not recommend purchasing air purifiers, since most of them produce ozone, which is considered an air pollutant inside the home.

"With proper steps and the proper medical treatment, most people can continue to enjoy their pets, even if they have pet allergies" Dr. Ranta notes.

For further information contact Dr. Ranta at Great Lakes Allergy & Asthma Center in Newberry or visit [www.GreatLakesAllergy.com](http://www.GreatLakesAllergy.com).

**CLASSIFIED DEADLINE MONDAY 4:00 PM**

**Do Hypoallergenic Dogs or Cats Exist?**

"Hypoallergenic dogs and cats are often discussed in the media," Dr. Peter Ranta, a local allergist, explains.

Dogs and cats both cause allergies by way of proteins in their saliva and urine. Dander carries these proteins and helps cause the allergy symptoms. "Therefore, a truly hypoallergenic dog or cat does not exist" he states.

have a lot of variability since there is "no guarantee that a litter will produce equal Poodle coats," according to the American Kennel Club.

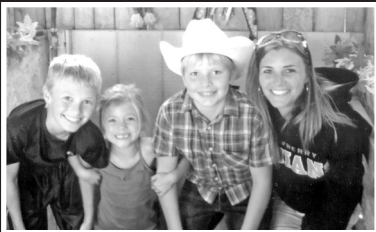

Small dog size may be beneficial due to smaller body surface area and reduced production of dander. Female dogs may produce less allergens. Dogs that bark a lot may produce more saliva proteins.

However, there are certain "hypoallergenic" dog breeds that produce less dander and shed less. These include: Bedlington Terrier, Bichon Frise, Chinese Crested, Irish Springer Spaniel, Kerry Blue Terrier, Maltese, Poodles, Portuguese Water Dog, Schnauzers, Soft Coated Wheaten Terrier and Xoloitzcuintli dogs.

Some breeders have created "Labradoodles" and "Goldenoodles," which are a cross between a Poodle and a Labrador Retriever or a Golden Retriever. However, these designer dogs
